OUR **AIM**

Our aim to use growth models to contribute to business success, to drive innovative ideas through focused activities, to improve company reputation, to grow production size to meet demands, to use capital strengthening the business, to use advance technology ensuring best quality.

■ WHY CHOOSE US?

We are an emerging Mines and Mineral development company under the Title of "ACM Mines & Minerals (Private) Limited with its office at Islamabad aimed at the development of Minerals and its value addition products for domestic & industrial consumption as well export to enhance the mineral's contribution in the GDP.

A state of the art mining machinery, equipment and an adequate qualified professionals human resource with high profile geo-scientific skills are set up for this dedicated objective.

We are interested in various Rock Salt leases at Khewra, Warchha and Kalabagh areas falling in Salt Range areas of Punjab. The Rock Salt Resources of Punjab are the largest resources in the World and the best deposits, but the asset is underutilized.

ACM intends to explore, develop and produce Pink Rocksalt deposits on scientific and commercial scale with value addition products of Pink Salt for domestic and international market consumptions.

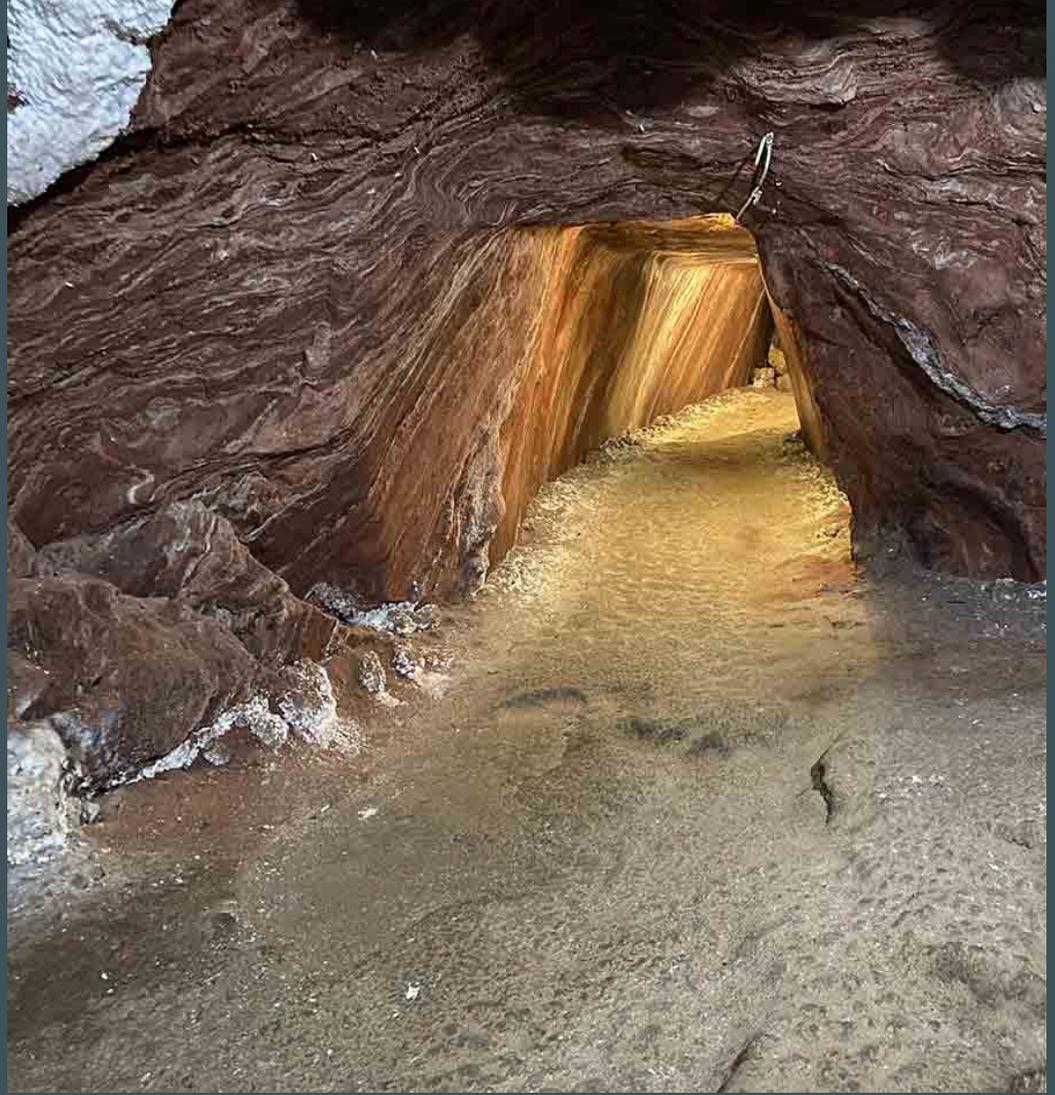

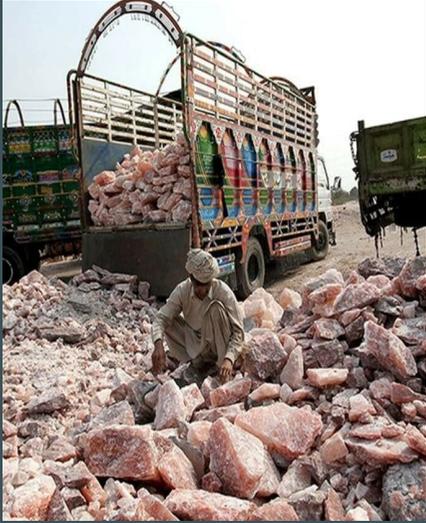

We are a good choice for the development of unexplored and undeveloped Rock Salt Resources and bring them to be best utilized to contribute in the National Exchequer.
